

## Engineering Specification:

Flexible couplings shall be of the triple-arch molded type. Neoprene and nylon construction, integral cuffs for clamp connections and reinforced with internal and external stainless rings between arches. Couplings to be rated for 1" (25 mm) compression, 1/2" (12 mm) extension, and 75 psi (517 kPa) at 225 deg. F (107 deg. C). Couplings shall be provided with stainless steel T-bolt or worm gear clamps for attachment to pipe.

Approved Product: **Model 201** as manufactured by Mark David Canada Inc., Montreal, QC. Canada.
